

Increase Cohesion among Community through Peace

The proposal aims at focusing on the reduction of tension in the society based on religion, caste and creed to enhance opportunities for peaceful environment for the people to live in harmony. Through this project we can involve leaders of other faith, inter-ethnic group, Church leaders, NGOs, Media persons and civil society groups.

IDSSS will take initiative in mobilizing groups of people and providing logistical supports to organize programmes for unity purpose. This intervention will give opportunity to mingle with various categories and denominations of people, who can come together with one mind and heart to change themselves through collective effort.

At a higher level our effort will be to sensitize the people of Indore and targeted communities, with the support of secular minded, liberal, democratic thinking and people with social outlook, meeting and dialogue for sharing inter cultural experiences, giving opportunity for collage youth to develop personal leadership abilities and creating adequate understanding about the basic unifying factor of different religious groups. This process will enable the participants to motivate others to think positively, work collectively and live peacefully.

Project Objectives:

People of rural and urban slum localities in 19 parishes of the diocese shall be motivated for unity, Harmony and peace in the area to maintain healthy social life.

- Promoting good values of humanity by witnessing to truth and justice.
- Providing young people and social worker to have faith in themselves and their traditions.
- Creating opportunities for other NGOs, local administration and other religion people to enter into healthy relationship and trust building.
- To promote inter culture and inter-ethnic understanding among the target community.
