

## **Tailoring**

Tailoring profession has a bright future in the city. Demand for training on tailoring and embroidery is increasing because of the high demand for garments in the market. Indore being a business and trade centre has facilities for whole-sale and retail market which is expanding every year. There are many textile industries which are giving specialized training and employment to young people who have basic knowledge of tailoring and embroidery. Therefore our effort is to equip the youth with proficiency and skills necessary for taking up tailoring as a profession to improve the economic status of the family

### **Objectives for tailoring:**

- 100 young slum women will have specialized training under a master tailor by the end of 12 months.
- Linkages/networking with the Banks, GO/NGO for leverage of finances to continue the trade.
- The trainees will be awarded diplomas/certificates by Jan Shikshan Sanstha, a government organization, for starting the tailoring trade.
- Make all the trained young women economically self reliant contributing to the family's welfare to live with dignity and respect.
